SUMMARY

Software Engineer with expertise in **MERN Stack (MongoDB, Express, React, Node.js)**. Passionate about building **scalable, user-friendly applications** with a strong foundation in **SDLC, OOP, and Agile development**. Experienced in frontend and backend development, problem-solving, and optimizing system performance..

EDUCATION

Bachelor's Degree in Software Engineering – KFUEIT, Rahim Yar Khan (2020 – 2024)

📊 **CGPA:** 3.51 / 4.0 (Grade A)

TECHINAL SKILLS

Frontend Development :

HTML, CSS, Tailwind CSS, JavaScript, React.js, Redux Toolkit, WordPress

Backend Development :

Node.js (Basic), MySQL, MongoDB

Programming Languages :

C++, OOP, Basic Python

Developer Tools :

Visual Studio Code, Sublime Text, Shopify

Other Skills :

Software Development Life Cycle (SDLC), Agile Methodologies, Communication, Business Development, Video Editing, MS Office

EXPERIENCE

- **Frontend Web Developer – Virtue Netz :**
 - Developed responsive, user-friendly interfaces using HTML, CSS, JavaScript, React.js.
 - Collaborated in Agile development cycles, optimizing UI performance.
 - Ensured cross-browser compatibility and accessibility standards.
- **Teaching Assistant (Frontend Web Development) – KFUEIT**
 - Assisted students with OOP, Algorithms, and Data Structures.
 - Conducted code reviews and helped debug React.js, Python, and JavaScript projects.
 - Provided best practices for frontend development.

Projects

- **Savor the Flavor – Your Ultimate Dining Experience** [Live Project](#)

Indulge in a delightful culinary experience with our beautifully designed restaurant website. Explore our menu, discover chef-special dishes, and enjoy seamless online reservations—all crafted for a perfect dining journey
- **MovieLand – Your Ultimate Movie Search Platform** [Live Project](#)
 - MovieLand is a React.js- based website that allows users to search for movies using the OMDB API. It features a dynamic search bar, fetching real-time movie data with seamless API integration.
 - With a responsive UI and efficient state management, Movie
- **Notes For Ever (React.js)** [Live Project](#)

Developed a **task & note management system** using **React.js, Redux Toolkit, and local storage**. Implemented **CRUD operations with timestamps** and designed an API-ready architecture.

- **DigitalVibe (MERN Stack) | [Live Project](#)**

Built a **digital agency platform** offering **video editing, social media management, and web development**.
